

ABSTRACT OF THE DISCLOSURE

An alkynyl S,N-acetal derivative of the present invention is represented by the following structural formula:

5 In the structural formula, R¹ represents a hydrogen atom, an alkyl group, an aryl group, an alkenyl group, a silyl group, or an alkynyl group; each of R² and R³ represents an alkyl group or an allyl group; and R⁴ represents an alkyl group.

10 The alkynyl S,N-acetal derivative, which is a novel compound, is useful as a raw material of propargylamine.

CERTIFICATE UNDER 37 CFR 110: The undersigned hereby certifies that this paper or papers, as described hereinabove, are being deposited in the United States Postal Service Express Mail Post Office to Addressee having an Express Mail Mailing label number of:

EV 315612356 US

in an envelope addressed to:
Assistant Commissioner for Patents
Washington, DC 20231
